About Me

Dedicated and self-motivated MERN stack developer with a passion for building robust and scalable web applications. Proficient in MongoDB, Express.js, React, and Node.js, acquired through self-directed learning and hands-on projects. Experienced in full-stack development, from designing database schemas to implementing responsive user interfaces.

Technical Skills

Frontend: React, JavaScript, EJS, HTML5, CSS, Tailwind CSS, Figma

Backend: Node.js, Express, Mongoose, RESTful APIs, MVC, Microservices, TypeScript

Frameworks: Express.js, Next.js

Database: MongoDB, PostgreSQL

Dev Tools: VS Code, Git, GitHub, AWS, npm, Postman

Deployments: NGINX, AWS EC2, PM2

Third-Party APIs: Razorpay, Google Auth, Google Analytics, JWT

Data Structures: Array, String, Linked List, Stack, Queue, HashMap, Trie, Heap, Tree, Graph

Experience

MERN Stack Developer Intern	<i>Zm QR Code Services, Gundur</i>	Jan 2025 – Present
------------------------------------	------------------------------------	--------------------

- Developed and maintained full-stack web applications using MERN stack technologies.
- Played a key role in developing the company's website, ensuring a responsive and user-friendly interface.
- Implemented responsive user interfaces using React.js and Tailwind CSS.
- Created RESTful APIs and integrated third-party services.
- Collaborated with team members using Git for version control.

Projects

FitShe - MERN Stack Gym Application	Live Link — GitHub
--------------------------------------------	----------------------------------------------------

- Full-stack MERN application for managing gym memberships, tracking workouts, and BMI calculations.
- Features: BMI calculator, workout tracking, payment integration, email notifications, admin dashboard.
